This is to inform you that anyone with common sense would not grant any price increase at this time. I am 65 living on a fixed income. My bill for Jan, 2010 was \$291.47! We had the heat turned off at night and had it set at 65 during the day. Don't tell me about weather proofing my house, already done it. My unit is only 2 years old. I have done all I can to keep my bill as low as I can. I suggest SCE&G do the same and find a way to pay their bill. How about some of the top officers giving up all or part of their bonus! Now that's a great idea.
